RECORD OF SUBSTANCE OF INTERVIEW

Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-1450

Sir:

This is in response to the Examiner Interview conducted on January 11, 2010. In accordance with M.P.E.P. § 713.04, Applicants herein provide a record of the substance of the interview.

Attorney for Applicants inquired as to whether the Amendment filed November 30, 2009 was satisfactory to overcome the outstanding cited art rejection. Specifically, Attorney for Applicants referred to the claims amendments of independent claims 1, 9, 12, 14, 15, 16, 17, 18, 21, and 32.

Examiner Atala indicated that the amendments overcame the outstanding rejection. However, Examiner Atala indicated that if allowable subject matter is found in the pending claims upon further consideration, then an amendment to claim 18 may be necessary to overcome a potential 35 U.S.C. § 101 issue. Examiner Atala indicated that if claim 18 will need further amendment to overcome a potential 35 U.S.C. § 101 issue, that she will contact the undersigned via telephone to inform the undersigned of the new rejection.

As per the discussion in the Interview, and the amendment filed November 30, 2009, Examiner Atala stated that the outstanding prior art rejections against the pending claims would be withdrawn. Therefore, Attorney for Applicants understands that further action is not required

at this point, and will await the issuance of a new Office Action, or further communication from the Examiner in due course.

Respectfully submitted,
